SPACELAB Vocational Training Guarantee

spacelab is the institution with the lowest threshold among all projects of Vienna's *Vocational Training Guarantee*, that offers a complete and manifold program for the integration of youngsters into the labor market.

The Vienna *Vocational Training Guarantee* includes all kinds of measures to enable youngsters to finish training or education beyond the compulsory secondary school education. Its target group are youngsters from 14/15 to 21 years that have finished 9 years of compulsory education.

SPACELAB NEBA (Employment Assistance Network)

The **Employment Assistance Network** (Netzwerk Berufliche Assistenz - **NEBA**) of the Sozialministeriumservice (Social Affairs Ministry Service) provides a system of assistance to young people at the transition from school to work, including Youth Coaching, Production Schools, Training Assistance (Berufsausbildungsassistenz), Job Assistance (Arbeitsassistenz) and Job Coaching.

A conventional Austrian **production school** consists of four pillars: training, coaching, knowledge workshop and sports. Additionally, **spacelab** provides low-threshold access to young people through open youth work and the possibility to participate on a daily basis.

MOTIVES FOR THE REALISATION OF SPACELAB

The experience of prior projects led to the development of the **modular concept** with different levels of personal commitment in 2009. Before there had not been any program **combining methods of open youth work and labor market aims**. The realization of spacelab should provide a **low-threshold program** for the youngsters that allows them to come back after dropouts.

TARGET GROUP

Viennese youngsters from **15 to 24 years (focus on 17-24)**, who are neither in education, employment nor training (NEETs) and have a more difficult access to the labor market.

SPACELAB THE ORGANISATIONS

spacelab is implemented by five NGOs, that provide and combine their particular expertise:

- Volkshilfe Wien (Training and Daily Vocational Training)
- Association of Youth Centres in Vienna (Open and Detached Youth Work)
 - WUK Werkstätten- und Kulturhaus (Coaching)
 - Wiener Volkshochschulen (Knowledge Workshop)
 - Sprungbrett für Mädchen
(Training, Daily Vocational Training and Coaching)

FUNDING

spacelab is funded by **Sozialministeriumservice** and **Vienna Employment Promotion Fund (waff)**.

In 2016 spacelab is funded with a budget of **3.5 million euros**.

The Public Employment Service (AMS) covers the training benefits for the participants.

Moreover Vienna's Municipal Department 13 (Education and Youth Work) provides funds for staff and infrastructure for the Open and Detached Youth Work module.

STRUCTURAL MODEL OF SPACELAB

Gefördert von:

Kooperation von:

MODULAR CONCEPT

Coaching

- Socio-pedagogical assistance and counselling
- Individual support and development of career plans
- Individual job application trainings

Knowledge Workshop

- Evaluation of the individual knowledge level of the participants
- Instruction of basic knowledge in reading, writing, mathematics, English and social skills.
- Preparation for entrance examinations.
- Instruction in individual and group setting.

Training

- Continuous training from Monday to Friday
- 25 hours/week, up to 6 months
- High level of personal commitment
- Daily routine
- Comeback after dropout is possible
- Training benefits paid by the Public Employment Service
- 10 to 12 participants per group

Gefördert von:

Kooperation von:

X = possible entry into the project

Open and Detached Youth Work

- Detached youth work (public spaces and other facilities)
- Introduction into spacelab and other programs of the Vocational Training Guarantee.
- Establishing a professional relationship and confidence.
- Arouse their interest and skills
- Referring clients to the prospect coaches or institutions that match better
- Public relations and networking

Daily Vocational Training

- Participation on a daily basis in a creativity workshop
- Low threshold regarding liability and commitment
- Development of a daily routine
- Comeback after dropout is possible
- Pocket money (€ 10,-) if no other grants
- 10 participants per group

Sports

- are an integral part of spacelab
- training motor functions, concentration, endurance and coordination
- outdoor educational activities
- ball games, team sports
- field trips
- other activities

RESULTS AND ACHIEVEMENTS

- The main objective of spacelab is the development of personal and professional prospects. More than 95% of the participants who stay for more than three months have a vocational perspective.
- The results of this intensive assistance process are documented and transmitted to the counsellor at the Public Employment Service (AMS). This facilitates further measures for the integration into the labor market.
 - In 2015 35% of the participants started a scholar career, an apprenticeship, other qualification programs or got employed.

SPACELAB IN NUMBERS

- **76** available places in training
- **34** available places in **daily vocational training**
- Every day **110 youths** are trained in workshops
- In **2015** spacelab supported **1177 participants** (784m, 393f)
- The gender ratio is **67%** male to **33%** female participants
- In 2015 **488 young people** participated in the **daily vocational training**
